

A fresh, engaging approach to diversity in a 3-hour workshop

Conscious Inclusion™

Take a closer look at how you define yourself, what connects you to others, and why it's important to recognize and value these aspects. Learn how to recognize and manage biases and what actions can help you be more intentionally inclusive.

We actively work to make everyone feel safe and welcome, encouraging meaningful discussions that deepen awareness. Our high-energy, interactive approach connects participants and creates a fun environment for learning and growth.

INDIANAPOLIS
